

CLAIMS

What is claimed is:

1. A squirrel proof bird feeder, comprising:
 - (a) a base;
 - (b) one or more feeding chambers, wherein one end of said chambers are securely affixed to said base;
 - (c) a top locking device, wherein an end of said chambers opposite to said base are securely disposed within said top locking device; and
 - (d) a guard that is disposed along a surface of said top locking device, wherein said guard has one or more guard units, wherein units in apposition are securely adjoined to one another, and wherein said guard extends over a feeding chamber so as to prevent said squirrel from accessing said feeding chamber.
